PRACTICE MANAGEMENT NETWORK
— for practice managers, by practice managers —

Project
funded by

Overview

A comprehensive one-year diploma to enable candidates to gain proficiency and take on senior managerial roles in new models of primary care including primary care homes, GP 'super practices', multispecialty community providers (MCPs), integrated primary and acute care systems (PACS) and primary care federations. The curriculum will incorporate the learning and experience from NAPC's primary care home programme and the new care models programme.

What you can expect

- A practical, online, focused, service development and business management diploma
- Learn from current primary care at scale developments
- Qualifications – gain 60 credits (20 per module) at postgraduate level 7. On completion of the diploma, students may apply to study for HFMA's Higher Diploma which provides a pathway to a full MBA
- Network learning
- Diploma alumni to continue sharing learning and best practice

Starting the programme

There are two entry points in 2018:

- June 2018
- October 2018

Fees

Total fee: £2,800 + VAT

Registration fee: £200 + VAT (payable as a deposit on notification of candidate acceptance, non-refundable).
